

Asset Protection Presentation on QuantiaMD

I just realized I never actually posted about the last presentation I did on QuantiaMD. This was a series of 8 audiovisual presentations I did months ago. As they were run, I posted a link here for each one. However, I never did that for the final presentation, on asset protection. You can find it here. You should be able to watch all of these presentations without signing up for QuantiaMD, but if you qualify, I'd recommend you do as there is lots of other good stuff on there for medical types.

The basics of asset protection are a mystery to most docs. If you'd like to relieve yourself of a lot of anxiety, watch this presentation. Many asset protection techniques are cheap, easy, and effective. [This presentation](#) discusses the most important ones.

Prior QuantiaMD presentations can be found at the following links.

- #1 [Live Like A Resident](#) (806 comments)
- #2 [Student Loan Management](#) (400 comments)
- #3 [Your Largest Tax Break](#) (768 comments)
- #4 [The Backdoor Roth IRA](#) (450 comments)
- # 5 [The Safe Withdrawal Rate](#) (337 comments)
- # 6 [How Much Do You Need To Retire](#) (630 comments)
- # 7 [Estate planning](#) (525 comments)
- # 8 [Asset Protection](#) (511 comments)

If you haven't seen any of these, I'd start at the beginning, but if you've been following along be sure to check out the last one on [Asset Protection](#) and then come back and let me know what you think.

What do you need to do with regards to estate planning? What have you already done? Comment below!
