Physician Specific Issues

What do you feel is your biggest value-add for a doctor?

I understand the issues related to clients that are not currently on the front steps of retirement. These issues include paying off student loans, the home buying process, family planning, and saving for retirement- all at the same time.

Do you consider yourself qualified to give high-quality advice on all of the following student loan related issues: IBR, PAYE, REPAYE, PSLF, deferment, forbearance, and student loan refinancing? Why or why not? Is this advice included in your regular fees listed above?

Yes. I have taken a student loan course from Heather Jarvis which delved into each of those student loan related issues. I also have first-hand experience working with several clients who were dealing with those issues at the time. And I received training while working as a financial advisor at LearnBest.

How many clients have you assisted with a Backdoor Roth IRA in the last year?

Not very many, perhaps 1 or 2. I am personally not a fan of them because of the potential issues that may arise with the IRS.
