What do you feel is your biggest value-add for a doctor?

I firmly believe in Advocacy and Representation for every physician client I have. This begins with delivering the best value (via max discounts) on premiums and unbiased guidance based on the physician's individual needs/situation.

The process also encompasses negotiating the best possible outcome leveraging our decades of relationships with Insurance Companies.

Most important part of our value add on is "Service". We have a very well trained professional staff dedicated to keeping each physician informed about their policies, options, riders and any changes in our industry year after year.

Anything else that you would like me to take into consideration with regards to your application?

(Attach additional documentation as desired)

I lecture Residency / Fellowship Programs all over USA and I am very connected with the pulse of the Medical Community. I understand the problems they face and have dedicated my practice to making a difference for them.
