Physician Specific Issues

How many physicians and/or dentists are you currently advising? (i.e. managed assets of or met with in the last year):

MORE THAN 75 PHYSICIANS - 92% of our clients are physician families containing at least one M.D. or D.O. We no longer accept clients who are not doctors and we do not serve dentists.

What do you feel is your biggest value-add for a doctor?

We believe physicians are happier when they are treating patients and raising children so we help busy doctors save time and taxes while they pay off student loans, buy a home and set aside all the money they will need for college and retirement. To help physicians get on track, we help them do ordinary things extraordinarily well.

Do you consider yourself qualified to give high-quality advice on all of the following student loan related issues: IBR, PAYE, REPAYE, PSLF, deferment, forbearance, and student loan refinancing? Why or why not? Is this advice included in your regular fees listed above?

We remind clients that the success of their financial plan depends on staying fully invested, and we encourage clients to contribute more to their accounts while valuations are low.
